

- **Declaration of Conformity on REACH Directive (1907/2006/EG), SVHC Candidate List dated 19.01.2021**
- **Declaration of Conformity on RoHS Directive (2011/65/EU and 2015/863/EU)**
- **Declaration of Conformity on WEEE Directive (2012/19/EU)**

Dear Sirs,

Being a manufacturer of technical articles of polyurethane elastomers we are defined as a downstream user (producer of articles) under REACH. The raw materials used are either not subject to registration or are being registered by our suppliers. Our suppliers confirm that the materials used do not contain any substances of the SVHC Candidate List published by European Chemicals Agency (ECHA 211 substances, edition 19.01.2021) or they comply with the maximum permissible limit values.

As soon as we realize that our products are subject to reporting requirements under article 33, we will immediately inform you without any request.

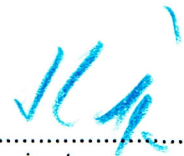

ACLA-WERKE know the requirements of the European REACH Directive. We built a data base listing the substances, preparations and articles used in all our products.

Basing on the information provided by our suppliers we declare that the products of ACLA-WERKE meet the specifications of REACH Directive.

Furthermore, we confirm that our products comply with the provisions of RoHS Directives 2011/65/EU and 2015/863/EU as well as WEEE Directive 2012/19/EU and are being manufactured in strict accordance with their applicable requirements.

Yours faithfully,

Köln, 22.02.2021
